About company

Giga Infosoft is a leading software company offering high-quality cost-efficient software applications and business technology. As a company with a global competency, we take the time to understand our client's business strategies and focus on total customer and end-user satisfaction by providing technologies that enable companies to address their changing business needs.

About Giga ERP

Giga ERP will automate end-to-end activities of all type of educational organizations and optimize the use of premium resources. A school or college can use the application to computerize over all activities including **student information, examination process, learning activities, fee payment, accounting, student attendance, library usage, news, event management, HR management** and many more. The application will also provide the interaction facility to parents, teachers, and students.

Take your school to the next level....
